INDEPENDENT AUDITORS' REPORT

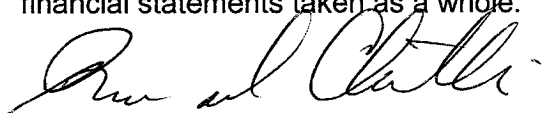

To the General Partner
Grant Williams, L.P.

We have audited the accompanying statement of financial condition of Grant Williams, L.P. as of December 31, 2009 and the related statement of income and expense, changes in partners' capital, changes in liabilities subordinated to general creditors, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Grant Williams, L.P. as of December 31, 2009, and the results of its' operations, cash flows and changes in partners' capital for the year then ended in conformity with accounting principals generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule of computation of net capital for the year ended December 31, 2009 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 2009 and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(b) Basis of Presentation:

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

(d) Securities:

All proprietary securities transactions, and the applicable profits and losses arising from these transactions are reported on a trade date basis. Marketable securities are stated at market ("marked-to-market") value. The resulting unrealized gain or loss is included in operations.

NOTE 2 – RECEIVABLE FROM AND PAYABLE TO CLEARING ORGANIZATION

Receivables from the clearing organization represent agency commissions earned net of clearing costs and fees. Payables to the clearing organization represent the net cash debit balance in proprietary accounts and are collateralized by securities owned by the Company.

NOTE 3 – SECURITIES OWNED

Marketable securities owned consist of trading and investment securities at market values as follows:

State and Municipal Obligations	\$ 1,204.278
Equities	<u>5,946</u>
Total	<u>\$ 1,210,224</u>

NOTE 4 – SUBORDINATED BORROWINGS

The borrowings under subordination agreements with limited partners at December 31, 2009, are listed in the following:

Subordinated Notes, 9 percent, due October 31, 2010	\$ 301,000
Subordinated Notes, 9 percent, due March 31, 2012	<u>75,000</u>
Total	<u>\$ 376,000</u>

NOTE 5 – EXPENSE SHARING AGREEMENT

On January 1, 2009, the Company entered into an agreement with Clark Capital Management, Inc. under which Clark Capital Management, Inc. provides the Company with office space, office equipment and office supplies in return for the payment of \$1,500 per month. For the year ended December 31, 2009, the Company made no payments to Clark Capital Management, Inc. as prescribed by this agreement.

GRANT WILLIAMS, L.P.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE 6 – CONCENTRATIONS OF CREDIT RISK AND OTHER MATTERS

The Company keeps its cash with high credit quality financial institutions. The account balances may exceed the FDIC insurance limit.

The Company clears its introduced transactions through another broker-dealer, which is highly capitalized, and a member of all major securities exchanges. Nonperformance by its clearing broker in fulfilling its contractual obligations pursuant to securities transactions may expose the Company to risk and potential loss.

The Company is engaged in various trading and brokerage activities whose counterparties primarily consist of broker-dealers and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the credit worthiness of the counterparty or the issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

NOTE 7 – FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET CREDIT RISK

In the normal course of business, the Company's customer activities include the execution and settlement of various customer transactions. These activities may expose the Company to off-balance sheet credit risk in the event the customer is unable to fulfill its contractual obligation to pay for securities purchased or deliver securities to settle sale transactions. These customer omissions could expose the Company to the risk of loss if the Company were required to purchase or sell securities to offset the customer transaction at prevailing market prices. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and to monitor the execution practices employed by the clearing agent.

NOTE 8 – NET CAPITAL REQUIREMENT

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of the aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2009, the Company had total net capital of \$33,881, which was \$66,119 less than its minimum net capital requirement of \$100,000. In addition, the Company's ratio of aggregate indebtedness to net capital was 3.75 to 1 and its debt to debt-equity ratio was 1.98 to 1 at December 31, 2009. Management anticipates that the partners will provide sufficient capital to ensure compliance with the SEC Net Capital Rule.

GRANT WILLIAMS, L.P.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE 9 – INCOME TAXES

The Company is taxed for federal and state purposes as a partnership. As a result, the Company is not a taxpaying entity for federal or state income tax purposes and, accordingly, no income tax expense or tax benefit has been recorded in these financial statements. Income or losses from the Company are reflected on the Partners' income tax returns.

Report on Internal Accounting Control Required by SEC Rule 17a-5

To the General Partner
Grant Williams, L.P.

In planning and performing our audit of the financial statements of Grant Williams, L.P. (the "Company") as of and for the year ended December 31, 2009 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications and comparisons and recordation of differences required by rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of the Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph.

In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2009, to meet the SEC's objectives.

This report is intended solely for the information and use of the Member, the SEC, the Financial Industry Regulatory Authority, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
